### PART I: TO BE COMPLETED BY THE PARENT/GUARDIAN

I hereby request and authorize Montgomery County Public Schools (MCPS) and Montgomery County Department of Health and Human Services (DHHS) personnel to administer an epinephrine auto-injector as directed by the authorized prescriber (Part II, below). I agree to release, indemnify, and hold harmless MCPS and DHHS and any of their officers, staff members, or agents from lawsuit, claim, demand, or action against them for administering prescribed medication to this student, provided MCPS and DHHS staff are following the authorized prescriber's orders as written in Part II. I am aware that the injection may be administered by a trained, unlicensed staff member. I have read the procedures outlined on the back of this form and assume the responsibilities as required.

**I understand that the rescue squad (911) will always be called when an epinephrine auto-injector is administered, whether or not the student manifests any symptoms of anaphylaxis.**

### INFORMATION AND PROCEDURES

1. Student individually prescribed epinephrine auto-injector WILL NOT BE ADMINISTERED IN SCHOOL OR DURING SCHOOL sponsored activities without a parent/guardian signed authorization and waiver and an authorized prescriber's order/authorization for students with a known diagnosis of anaphylaxis.
2. This form must be on file in the student's health folder. The parent/guardian is responsible for obtaining the authorized prescriber's order/authorization. (See Part II.) The principal or school nurse will ensure that all items on the form are complete.
3. The parent/guardian is responsible for submitting a new form to the school each school year and whenever there is a change in dosage or a change in conditions under which the epinephrine auto-injector is given.
4. An authorized prescriber may use office stationery/prescription pad in lieu of completing Part II. Information necessary includes: student's name, allergen for which the epinephrine auto-injector is being prescribed, amount of pre-measured epinephrine, order for repeat dose if deemed necessary, authorized prescriber's signature and date.
5. Medication must be properly labeled by a pharmacist and must match the authorized prescriber's order. If the authorized prescriber's orders include a repeat epinephrine auto-injector, an additional epinephrine auto-injector must be provided by the parent/guardian.
6. Medication must be hand-delivered to the school by the parent/guardian or designated adult. Staff will **not** administer medication brought to school by the student.
7. All medication kept in the school will be stored in a secure area accessible only to authorized personnel.
8. The parent/guardian is responsible for collecting any unused portion of a medication within one week after expiration of the authorized prescriber's order or at the end of the school year. Medication not claimed within that time period will be destroyed.
9. An authorized prescriber's order and parent/guardian permission are necessary for self-carry/self-administered emergency medications. The school nurse must evaluate and approve the student's ability and capability to self-administer medication. The student must understand the necessity for reporting to either health staff or MCPS staff following self-administration of an epinephrine auto-injector.
10. The school nurse will call the authorized prescriber as allowed by the Health Insurance Portability and Accountability Act (HIPAA), if a question arises about the epinephrine auto-injector order.
11. Use [MCPS Form 525-13, Authorization to Administer Prescribed Medication, Release and Indemnification Agreement](#), for all other prescribed medications.
